

## FOR IMMEDIATE RELEASE

### Hang-AR Introduces the Next Generation Lockable Stealth™ Gun Mount and QD Stealth™ at SHOT Show 2026

**Las Vegas, NV — January 2026** — Hang-AR, a brand of Aesir Brands, will debut two major additions to its industry-leading firearm mounting lineup at SHOT Show 2026, showcasing in the New Product Center and at Booth #42919. The launch includes the Next Generation Hang-AR Stealth Gun Mount – Lockable and the Hang-AR QD Stealth Gun Mount, both engineered to meet the evolving needs of modern firearm owners, retailers, and professional environments.

#### The Evolution of the Stealth Mount

As firearm ownership continues to evolve, so do expectations around how rifles are stored, staged, and displayed. Hang-AR's original Stealth Mount earned its reputation by delivering a minimalist, nearly invisible mounting solution that protected both the firearm and the mounting surface.

Lockable and Quick Attach/Detach Stealth Mounts

The Next Generation Stealth Gun Mount – Lockable builds on that foundation by adding integrated compatibility with standard cable-style gun locks, providing an additional layer of security that helps discourage unauthorized handling—without compromising accessibility, aesthetics, or speed.

#### Next Generation Hang-AR Stealth Gun Mount – Lockable

- Accepts standard cable-style gun locks
- Adds an extra layer of security for home, showroom, and professional use
- Maintains the Stealth Mount's low-profile, nearly invisible appearance
- Ideal for staged display while keeping firearms retained and protected

#### Hang-AR QD Stealth Gun Mount

For users who prioritize speed and flexibility, Hang-AR is also introducing the QD Stealth Gun Mount, a tool-less, one-handed quick-detach solution designed for both commercial and residential applications.

- One-handed attach/detach operation, tool-less installation and use
- Integrated breakaway safety feature designed to help prevent damage to firearms or mounting surfaces if the rifle is pulled incorrectly
- Ideal for retail displays, training environments, and home staging

#### SHOT Show 2026 Availability

- See both products in the SHOT Show New Product Center
- Visit Hang-AR at Booth #42919
- Dealer pre-order specials available at the show
- Shipping begins Spring 2026

#### About Hang-AR / Aesir Brands

Hang-AR is a product line of Aesir Brands, a U.S.-based manufacturing and R&D company dedicated to developing innovative, purpose-built solutions for the modern responsible firearm owner. All Hang-AR products are designed and manufactured in the USA, with a focus on durability, safety, and clean, functional design.
