

# See the World. Not the Fog.

## It Lasts

Frog Spit creates a durable barrier against fogging, which is especially beneficial in activities like sports, industrial uses, or even medical settings.

## It's Safe

Frog Spit is biodegradable, water soluble, PH neutral and is FREE of any chlorine, phenol, formaldehyde, petroleum distillate, silicone, alcohol, parabens, and sulfates all while providing a top performing anti-fog solution for people using goggles or glasses for any setting.

## You can See the Difference

FrogSpit offers a **made in the USA** premium line of anti-fog solutions designed to provide **long-lasting clarity** for a wide range of applications, including eyewear, goggles, mirrors, and other surfaces prone to fogging. Using an advanced, durable formula, FrogSpit ensures a clear, fog-free experience that lasts longer than typical competitors, even in high-moisture environments. Its non-toxic, eco-friendly ingredients make it a **safe** choice for all ages, while the easy-to-apply, streak-free solution delivers **reliable results without frequent reapplication**. Whether for sports, industrial uses, or everyday use, FrogSpit **guarantees** optimal performance for users seeking uninterrupted visibility.

ECO-FRIENDLY

MADE IN USA

SUPPORTS SMALL BUSINESS
