

MIRRA[®]

S A F E T Y

ABOUT US

At MIRA Safety, our mission is simple: deliver the same life-saving protection trusted by military professionals to the families and individuals who need it most. Born from firsthand experience with global disasters, we know that when crisis strikes, self-reliance is everything.

From pioneering children's gas masks to championing civilian access to military-grade gear, we put elite protection directly into the hands of everyday people. Because your family's safety shouldn't depend on a job title or clearance level.

MIRA Safety represents a movement for those who refuse to be unprepared. When the world turns dangerous, the prepared protect what matters most. We're here to make sure that's you.

CM-8M®

CM SERIES

The CM Series is a lineup of modern full-face gas masks designed for reliable CBRN protection in civilian, tactical, and professional environments.

CM-6M[®]

CM-7M[®]

CM-8M[®]

Featuring durable construction, comfortable seals, and a wide field of view, the series includes models like the CM-6M[®], CM-7M[®], and CM-8M[®]. Each are optimized for different applications while remaining compatible with standard 40 mm NATO filters.

MD-2™, THE BEST KIDS' GAS MASK

Your family's safety comes first, especially when it comes to your kids. The MD-2™ Kids Gas Mask gives children reliable protection without the breathing and fit challenges of adult-sized masks. It simply slips over the head, and the powered blower provides easy airflow while keeping harmful aerosols out. Lightweight, fast to deploy, and compatible with standard 40mm filters, the MD-2™ helps you protect your children when it matters most.

PROTECT

WHAT

MATTERS

MOST

FILTERS

MIRA Safety filters are engineered to provide clean, breathable air in environments where contaminants and harmful toxins pose a threat. They work by removing particulates, toxic gases, and harmful chemicals before they can be inhaled, making them an essential component of any protective mask setup.

NBC-77 50F®

Designed to provide comprehensive respiratory protection against a wide range of chemical, biological, radiological, and nuclear threats.

VK-530™

Designed to overcome smoke and particulates (along with high concentrations of carbon monoxide), these advanced filters provide crucial hours of clean-air protection.

PARTICLEMAX®

Combining cutting-edge ultra-low particulate air (ULPA) filtration with 40 mm standard NATO threading, these P3-certified biofilters provide unparalleled protection from airborne viral and bacterial threats.

WHEN YOUR JOB IS TO PROTECT, OUR JOB IS TO PROTECT YOU™

MIRA Safety is trusted worldwide by professional responders who rely on advanced CBRN protection. Our products are actively used by military forces, law enforcement, hazmat teams, and emergency response units that require mission-ready reliability in the harshest environments.

Internationally, MIRA Safety gear is deployed by national-level Ministries of Defense and Interior across the United States, the Czech Republic, Turkey, Romania, South Africa, and other allied nations, underscoring the global confidence placed in our protective systems.

Domestically, first responders and active-duty personnel depend on our military-grade gas masks, filters, and protective suits, backed by dedicated support and accredited government-service programs. This wide adoption reflects our commitment to delivering rugged, professional-grade equipment for those who safeguard lives and national security.

TAPR®

CBRN DETECTION PAPER

Designed to detect and differentiate between three of the deadliest groups of chemical warfare agents: G, V, & H agents.

CWD-3 CBRN DETECTION STRIPS

Identify dangerous concentrations of chemical warfare agents and insecticides in the air, water, food, and hard surfaces.

POTASSIUM IODIDE TABLETS

The best iodide tablets to help safeguard your body against radioactive iodine-131, a major contributor to radiation exposure during nuclear fallout.

MIRAVISION® SPECTACLE KIT

Easily mounts directly to your CM-6M®, CM-7M® and CM-8M® mask without compromising a full-face seal. Available in three lens colors.

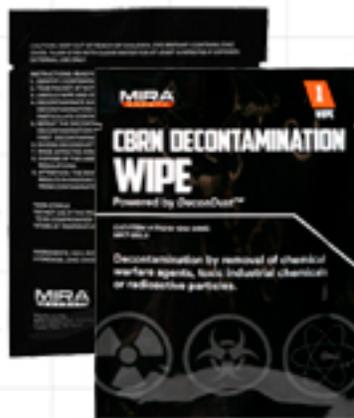

NIJ LEVEL 4 BODY ARMOR PLATE

These stand-alone multi-curve shooter's cut plates are engineered to stop multiple impacts from armor-piercing ammunition across a range of rifle threats.

DECONDUST™ DRY DECONTAMINATION

A fast, effective, and safe dry powder for neutralizing chemical threats by physically binding to them and breaking them down on contact.

DECONTAMINATION WIPE

Individually packaged wipe engineered for immediate neutralization and removal of chemical warfare agents, toxic industrial chemicals, and radioactive particles from skin, gear, equipment, and hard surfaces.

MB-90® PAPR

This advanced PAPR respirator elevates your respiratory protection, transforming standard gas masks, full-face and half-mask respirators into high performance air-purifying systems.
