## CAMO<sup>X5</sup> HUNTING BLIND

### **Pelican Enters the Hunting Category, Unveils the New Catch CamoX5™ Hunting Blind at SHOT Show 2026**

#### **Fall 2026 launch planned for Pelican's first hunting product.**

Pelican is stepping into the hunting world with the Catch CamoX5™ Hunting Blind—a rugged, all-season, two-person blind designed for serious concealment, comfort, and confidence when conditions change fast. Pelican will unveil the CamoX5 design at SHOT Show 2026 in Las Vegas at the Venetian Expo + Caesars Forum, ahead of a Fall 2026 retail launch.

Built to support long sits and real-world weather, the Catch CamoX5 combines a durable shell with field-ready details: five tinted windows for 360° visibility, integrated window awnings to help protect sightlines in rain or snow, a vented roof to improve airflow and help reduce condensation, and a steel-reinforced twist-latch door for added strength and security. Offered in Gray Oak and Boreal Green finishes, the CamoX5 is engineered to blend into forest, field, and boreal terrain—where stealth matters most.

**“This is a major milestone for Pelican,” said Frederic Guay, CCO. “We’re bringing our proven outdoor durability and practical design into hunting with a blind built for the moments when the weather doesn’t cooperate—and the hunt keeps going.”**
