

For Immediate Release

(Andersonville TN, December 18, 2025) — The Mepro MPO Pro-F and MPO-F as well as the MPO Pro-S and MPO-S are now available in green! Last year Meprolight® introduced the [MPO](#) family of micro pistol optics designed with features to upgrade your capabilities and to help you become a better shooter. MPO optics are rugged and offer the choice of an RMR or RMSc footprint to fit most popular pistols. All

four models will be available in stores and online. Great for carbines and shotguns too.

Models feature either an open emitter or closed emitter system, automatic brightness control, and automatic power-saving mode with shake awake function.
