TION, INC. UNVEILS THE DRAGOON® 9MM MINI

TION'S DRAGOON® 9MM MINI IS THE MOST VERSATILE AND HIGH PERFORMANCE 9MM SUPPRESSOR ON THE MARKET

Red Lion, PA – December 23, 2025 – TiON Inc., a leading innovator in suppressor manufacturing, is pleased to announce the newest addition to the Dragoon® Rifle Suppressor lineup: the Dragoon® 9mm Mini. Available in Direct Attach (DA) and Quick Detach (QD) versions, the Dragoon® 9mm Mini boasts high performance and complete user-serviceability in a compact design.

In keeping with the standards of the entire Dragoon® line, the 9mm Mini is not just optimized for supersonic and subsonic 9mm, but calibers ranging from .22LR up to .350 Legend, including .357 Magnum, .300 BLK, and .223 Remington. Renowned for its premium quality and lightweight design, the Dragoon® 9mm Mini is the industry-standard in terms of unmatched size, weight, and functionality.

Weighing only 8.6 oz (DA model) or 10.0 oz (QD) with an overall length of 5.5" (DA) or 6.35" (QD) and a diameter of just 1.375", the Dragoon® 9mm Mini is small enough to fit underneath many handguards for a more compact package. The user-serviceable design ensures easy maintenance, further distinguishing it from competitors. Its versatile assortment of mount/muzzle brakes support multiple calibers, making it a top choice for a variety of applications. Mounting options also include the Tri-Lug Mount, giving you a Quick Detach option for HK MP5/SP5 and most clone variants.

The Dragoon® 9mm Mini (DA & QD) is available for purchase direct-to-dealers nationwide and for all customers through tioninc.com.
