

PRESS RELEASE – FOR IMMEDIATE RELEASE

QUALITY THREAD & NOTIONS LAUNCHES *PRO-CUT™* CUSTOM CUTTING SERVICES FOR WEBBING, HOOK & LOOP, AND ELASTIC

CLEVELAND, OH — September 1, 2025 — Stop wasting time cutting materials by hand! Quality Thread & Notions now offers *Pro-Cut™ Custom Cutting Services* for Hook & Loop, Webbing, and Elastic—hot or cold cut to your exact specifications.

Whether you're producing tents, tarps, uniforms, or outdoor gear, QTN's trained team is here to make your workflow *faster, neater, and more efficient with Pro-Cut™ precision.*

- ✓ **Save time** by letting us do the cutting—freeing up your team for more valuable tasks
- ✓ **Speed up production** with ready-to-use lengths, perfectly cut and ready to sew
- ✓ **Improve accuracy** and enjoy consistent cuts across every piece
- ✓ **Cut costs** by eliminating material waste, salvage, and mismatched lengths

“We’re thrilled to expand our value-added services,” said Bob Heintz, President at QTN. “Our customers can expect the same fast turnaround, excellent communication, and tailored support they’ve come to trust—with even more ways to streamline production through *Pro-Cut™.*”

From large orders to small runs, *Pro-Cut™* delivers to your specs and ensures every order is properly packed and labeled.

- ❖ **Need a mix of cut lengths?** No problem, your order will be labeled, sorted, and ready for action
- ❖ **Standard lead time is fast**, but we’ll confirm timelines at time of quote based on volume
- ❖ **Competitive pricing and friendly service** - every time, with *Pro-Cut™* precision

Get the Edge—Without Doing the Cutting.
