FOR IMMEDIATE RELEASE

Display 7 pistols in the space of 4

Jan. 8, 2026, Buffalo Grove, IL – Horizon Mfg. Ent., Inc. the manufacturer of Rack'Em™ Racks is excited to announce a new version of their successful 7 pistol display for Gun Stores.

The new 7 Pistol Display from Rack'Em™ Racks is revolutionary for the Shooting Sports Industry because it eliminates hours of "Straightening" pistols in the display case. It now

has new spacer bars that keep the display spacing uniform across the display case. They display 7 pistols in the space of 4, hold guns at a 45-degree angle - which shows more of the gun versus pistols laying on a shelf. The display prevents scratching in the display case by keeping pistols separated. Non-slip feet keep the display in place eliminating hours of employee's time "straightening" the display case. The display guns from 22 caliber to 50 caliber, autos, revolvers, air soft, black powder, etc. Strong steel construction is rubber coated plus the chamfered wire ends - protect the inside of the pistol barrel. #6063-v2 7 Pistol Display. Cost: \$22.34 ea. (\$3.19/pistol)

Rack'Em™ Racks make it easier for consumers to see, find, and feel products. Organized displays speed up sales. Over 400 displays in stock, 1 pc. Min.

Don't be locked in when you remodel or move - Rack'Em™ modular store fixture displays change as your store changes.

Rack'Em™ Racks continues to lead the Shooting Sports Industry with 36 years of experience designing & manufacturing displays for gun stores, sporting goods stores, pawn stores, gun ranges and law enforcement agencies.

Look to Rack'Em™ Racks for: rifle displays, pistol displays, scope displays (traditional scopes displays, red dot scope displays, night vision scope displays, thermal imaging scope displays), knife displays, suppressor displays, fishing displays, archery displays, pawn displays, purse displays, custom-made displays, private label displays, OEM displays.

See Rack'Em™ Displays at Shot Show Booth # 41932 or www.rackems.com.
