SYNDICUS
CRYPTIC

Syndicus USA proudly announces the CRYPTIC, our flagship Law Enforcement and Military Option 1911 Double-Stack pistol purpose-built for law-enforcement, first responders, and military professionals. Engineered as a true 4.6-inch duty pistol and built on a 70 Series-style slide, the CRYPTIC reflects Syndicus USA's uncompromising commitment to reliability, accuracy, and modern duty capability.

Born from real-world service experience and validated through rigorous testing, the CRYPTIC embodies our core principle: Service Born. Duty Tested. The platform is currently undergoing evaluation by multiple law-enforcement agencies throughout Southern California, with one agency having formally approved the CRYPTIC for duty use within the last three months, reinforcing its readiness for frontline deployment.

Optimized for SureFire X300
DG Switch Compatible

Every component of the CRYPTIC was engineered with duty use as the priority—combining hardened materials, modern optics integration, modular grip and finish options, and proven internal geometry. The 70 Series design enhances mechanical reliability, while the 1:10 twist bull barrel delivers consistent accuracy across modern duty ammunition.

As Syndicus USA continues to establish itself at the forefront of law-enforcement weapons and technology, the CRYPTIC stands as a definitive statement of intent:

A weapons platform for service, performance without compromise, and purpose - built to define the next generation of duty pistols.
