## Work Sharp Brings Two New Sharpeners to Retail Market at SHOT Show 2026

ASHLAND, OR – January 20, 2026 | Work Sharp, a fourth generation, family-owned manufacturer of top-quality knives and knife sharpeners, today released two new sharpeners to its retail partners in conjunction with SHOT Show 2026.

The Guided Field Sharpener Elite and Folding Field Sharpener are both proven products in the company's direct channel and will be available to retailers this season to help provide them with additional products and price points to broaden their offerings and service to their customers.

The Ultimate All-In-One Field Sharpener, the [Guided Field Sharpener Elite](#) is the fully equipped evolution of a fan-favorite sharpener, built for those who take edge maintenance seriously, no matter where they are. With added 400 and 800 grit diamond plates and a zippered carry case, this system delivers everything users need to take their knives from dull to razor-sharp. Whether fixing a chipped edge or giving a favorite blade a light touch-up, this compact, rugged tool keeps knives field ready.

Key features and benefits of the Guided Field Sharpener Elite include:

- Coarse to ultra-fine abrasives (320, 400, 600 & 800 grit diamond) for full edge repair and refined polishing
- Built-in 20° and 25° angle guides to help deliver consistent results
- Fine ceramic honing rod which includes a fishhook groove
- Small ceramic hone for serrated knives
- Leather strop pre-conditioned with honing compound
- Broadhead wrench
- Zippered carry case protects your gear and keeps everything organized
- MSRP: \$74.95 / MAP: \$64.95

The Work Sharp [Folding Field Sharpener](#) provides a fast, easy and lightweight way to sharpen knives on the go, and when space is at a premium. An ultra-compact, pocket-ready design, the Folding Field Sharpener easily slips into a pack or pocket and can be stowed in a glovebox or tackle box for adventures on the move.

Key features and benefits of the Folding Field Sharpener include:

- Built-in 20° and 25° angle guides deliver repeatable action and consistent results
- Fast cutting and long lasting 400 grit diamond and fine ceramic hone sharpening surfaces
- Ergonomic folding design makes sharpening safe and easy to use.
- Compact with rugged glass filled nylon frame and metal pivot weighing just 4.6oz
- Pocket clip for secure and convenient carry
- MSRP: \$29.95 / MAP: \$24.95

### About Work Sharp

Work Sharp designs and engineers knives and consumer knife sharpeners in Ashland, Oregon. Family-owned since 1973, we help people sharpen every knife they own-at home, in the shop, and in the field.
