Can Tonic™

Ultrasonic Suppressor Cleaner

Infante® Can Tonic™ is the world's first and only ultrasonic cleaning solution engineered specifically for suppressor maintenance. Designed to maximize cavitation energy, Can Tonic™ amplifies microscopic scrubbing action within the tank—breaking down carbon, lead, and copper fouling with unmatched efficiency. It restores suppressors to peak performance while protecting the integrity of internal components. Safe for aluminum, stainless steel, titanium, Inconel, and all industry-standard suppressor finishes.
