CDX-BMG QUAKE .50 Caliber — Precision where value matters

The needs of sports shooters and military snipers differ. Many sport shooters do not require every military-grade feature, they want a reliable, attractive rifle that delivers precision without the premium price tag. The CDX-BMG QUAKE is a bolt-action, repeater chambered in 50 BMG engineered to be economical without compromising Cadex's legendary build quality.

Built the same way as our most prestigious rifles, the CDX-BMG QUAKE integrates the essential features serious precision shooters demand. Every component is selected and finished to deliver repeatable long-range performance while keeping acquisition costs accessible.

The CDX-BMG QUAKE delivers the best "bang for your buck" — premium performance, proven reliability, and unmistakable Cadex craftsmanship at a fraction of the cost of our CDX-50 TREMOR.

CUSTOM SHOP MODELS

X-LITE SERIES

The new X-LITE SERIES was meticulously designed with a singular mission in mind: to be the most visually stunning rifle Cadex has crafted in the last decade. As you know, Cadex has built its reputation on creating firearms with distinctive aesthetics and an unmatched appearance and this model continues that legacy.

CADEX TRIPOD LITE

Part#: CDX-TRIPOD-LITE

**NEW
ADDITIONS TO
OUR TRIPOD
LINE-UP**

The CDX Tripod Lite is a lightweight tripod that comes with a center column for flexibility in height adjustments. This tripod is more "hunter friendly" due to its lightweight and very fast locking systems. The aluminum housing is CNC machined from 7075 aluminum creating the ultimate strength and durability while the 28mm legs feature carbon fiber with increased density. Central locking system with a "Q-shaped" design allowing the user to swap the center within a few seconds. The legs feature independent spread to achieve level positioning on uneven terrain and to allow a low perspective minimum shooting height while still maintaining a load capacity of 22 lb.

- Center column length: 12.2" / 310mm
- Platform diameter: 1.84" / 47mm
- Removable hook that can attach to both center column and platform
- Mushroom-shaped rubber feet with reinforced aluminum inner core
- Included stainless steel spike foot set to swap for various terrain

Specs:

Max. height (w/o center column): 51.25" / 1302mm	Folded length: 21.5" / 546mm
Max. height (with center column): 62.75" / 1594mm	Leg section: 4
Min. height: 6.625" / 168mm	Weight (with center column): 3.92 lb / 1.78 kg
	Max load: 22.05 lb / 10 kg

CNC tripod, hard anodized 7075 aluminum,
10x Layer Carbon fiber tubes: 28/25/22/19mm
