

For Immediate Release

Come One! Come All!

STEMify Math with Dr. Klemm, the Numbers Lady

NumbersAlive! Booth 6239

Learners Help Learners – Endless Creativity - Our Kids are the Experts of the Future

Washington, DC – April 7 & 8

NumbersAlive! and the world-traveling STEM educator and featured speaker at the 2012 and 2014 USA Science and Engineering Festivals, Rebecca Klemm, PhD, will lead students, teachers, and parents at the 2018 Festival in Washington, DC.

Come play and build with NumbersAlive!'s stimulating puzzles and interactive activities that open inquisitive minds to transformational geometry and STEMify math for all ages. Dr. Klemm will be available for book signing and selfies.

During the 1st Quarter of 2018, NumbersAlive! has been stimulating teachers, parents, and children around the globe
